

LIVE SURGERY · Monday, 4th October 2021

14:30 – 16:30 · Plenary Room

High precision surgery – Optimisation through accurate indication and instruments

Join the KARL STORZ Live Surgery which features frequent indications in laparoscopy and hysteroscopy demonstrated by worldwide renowned surgeons. Experience a broad spectrum of hysteroscopic cases as well as laparoscopic oncology and endometriosis surgery transmitted from the Department of Woman, Child, and Public Health at the Fondazione Policlinico Universitario A. Gemelli – IRCCS, Rome, Italy.

Learn how proper selected equipment can support you in improving efficiency and safety in your daily practice. You will have enough time to interact and discuss with the operating team in Rome.
