OLYMPUS

Laparoscopic and Hysteroscopic Gynecological Surgery

From Benign Intrauterine Pathologies to Gynecological Oncology, Olympus will show a variety of 5 different procedures performed by renowned experts and young gynecologists under 40:

- A sacrocolpopexy performed by Dr. Giuseppe Campagna from Fondazione Policlinico Universitario A. Gemelli - IRCCS, Rome, Italy
- A complex laparoscopic hysterectomy of a big uterus performed by Prof. Martin Rudnicki and Dr. Bente Baekholm Poulsen from Odense University Hospital, Denmark
- an endometrial carcinoma with sentinel lymph node dissection performed by Dr. Morva Tahmasbi-Rad from University Hospital Frankfurt, Germany
- and two hysteroscopic procedures performed by Dr. Brunella Zizolfi from University Hospital Federico II, Naples, Italy
