

LIVE SURGERY · Tuesday, 5th October 2021

14:30 – 16:30 · Plenary Room

Medtronic

The next step forward in technology

You will be given the opportunity to view high quality gynecological endoscopy cases, showing a full spectrum of procedures covering different topics such endocavitary pathologies, laparoscopic surgery.

Live surgeries, demonstrations and debate sessions will ensure lively interaction directly with the operating team of the Department of Woman, Child, and Public Health at the Fondazione Policlinico Universitario A. Gemelli – IRCCS, Rome, Italy.
